

# Organic Chemicals Export of Belgium in 2024: The Detailed Trade Analysis of 2024

Organic chemicals, the category of chemical compounds primarily composed of carbon atoms, are the most demanded of the globally leading traders because of the wide use in healthcare facilities and cosmetic industries. Due to the role played by organic chemicals as a building block of plastic and synthetic fibres, the overall demand in the central regions has been gradually increasing. The essential role in pharmaceuticals and agronomic chemicals, along with the energy and fuel industry, has maintained continuity in the global trade. [Belgium Import Data](#) says, the country in Western Europe, bordered by the Netherlands and Germany in the north and east direction, have established themselves as a substantial contributor to the worldwide organic chemicals export market with strong logistics and storage facilities, along with strong R&D and innovation capacity.

The high export orientation of the nation and the strong link with life sciences have resulted in a total export valuation of organic chemicals worth 26 billion US dollars in 2024. The closer proximity to major European markets and the flexible capacity to produce specialty chemicals in bulk amounts have been benefiting the trade revenue. Subscribe to Import Globals, the leading Belgium importexport trade provider, to stay updated with the latest information regarding the organic chemicals export of the nation via the Belgium Trade Data.

## GOVERNMENT INITIATIVES FACILITATING THE EXPORT OF ORGANIC CHEMICALS FROM BELGIUM IN 2024

The Belgium Build Back Circular, also known as the Substitution of Hazardous Substances Act 2023, has given a competitive edge to the export market for those sensitive to chemical safety and sustainability. The Flanders Investment and Trade and regional support via catalysts under the Flanders Accelerate Framework has lowered the cost of innovation and production for chemical companies.

It has improved the product quality while maintaining internationally competitive alignment with the branches of healthcare facilities. The support for R&D and innovation in the chemical sector has enhanced the export value while giving open access to global markets. The sustainability and circular economy measures have supported the stability in the chemical production.

## THE LEADING VARIANTS OF ORGANIC CHEMICALS EXPORTED FROM BELGIUM IN 2024

The strong presence of the country as a top trade hub of polymers and plastics, along with the diverse downstream demand specifically in life sciences and the pharma industries has resulted in a diversity in the global trade output. According to the [Belgium Export Data](#), the top 10 leading variants of organic chemicals exported from the nation in 2024 are,

- Cyclic hydrocarbons – The annual valuation of Cyclic hydrocarbons exported from Belgium in 2024 – 9.87 billion US dollars
- Acyclic hydrocarbons – The annual valuation of Acyclic hydrocarbons exported from Belgium in 2024 – 6.21 billion US dollars

- Alcohols – The annual valuation of Alcohols exported from Belgium in 2024 – 5.40 billion US dollars
- Phenols – The annual valuation of Phenols exported from Belgium in 2024 – 4.19 billion US dollars
- Ethers – The annual valuation of Ethers exported from Belgium in 2024 – 3.21 billion US dollars
- Epoxides – The annual valuation of Epoxides exported from Belgium in 2024 – 2.87 billion US dollars
- Carboxylic acids– The annual valuation of Carboxylic acids exported from Belgium in 2024 – 2.25 billion US dollars
- Amines – The annual valuation of Amines exported from Belgium in 2024 – 1.89 billion US dollars
- Nitrogen heterocycles – The annual valuation of Nitrogen heterocycles exported from Belgium in 2024 – 1.5 billion US dollars
- Organic derivatives – The annual valuation of Organic derivatives exported from Belgium in 2024 – 1.2 billion US dollars

#### **TOP 10 EXPORT TRADE PARTNERS OF BELGIUM IN 2024**

The quality standards adopted by the government authorities and the efficient value chain integration have maintained stability in the trade regarding the topmost investing regions. As per the **Belgium Customs Data**, the top 10 export trade partners of the nation for organic chemicals exports in 2024 are,

- Germany – The total valuation of organic chemicals exported from Belgium to Germany in 2024 – 8.76 billion US dollars

Top 5 variants of organic chemicals exported

- Sulfonamides
- Polyols
- Glycols
- Carbohydrates
- Amino acids
- Netherlands – The total valuation of organic chemicals exported from Belgium to the Netherlands in 2024 – 6.42 billion US dollars

Top 5 variants of organic chemicals exported

- Secondary amines

- Tertiary amines
- Aromatic amines
- Heterocyclic amines
- Thiols
- France – The total valuation of organic chemicals exported from Belgium to France in 2024 – 4.19 billion US dollars

#### Top 5 variants of organic chemicals exported

- Anhydrides
- Acid halides
- Nitriles
- Nitro compounds
- Primary amines
- United States – The total valuation of organic chemicals exported from Belgium to the United States in 2024 – 3.21 billion US dollars

#### Top 5 variants of organic chemicals exported

- Ethyl esters
- Polyesters
- Primary amides
- Secondary amides
- Tertiary amides
- United Kingdom – The total valuation of organic chemicals exported from Belgium to United Kingdom in 2024 – 2.78 billion US dollars

#### Top 5 variants of organic chemicals exported

- Carboxylic acids
- Dicarboxylic acids
- Aromatic acids
- Esters
- Methyl esters

- Italy – The total valuation of organic chemicals exported from Belgium to Italy in 2024 – 2.24 billion US dollars

#### Top 5 variants of organic chemicals exported

- Symmetric ethers
- Asymmetric ethers
- Aldehydes
- Ketones
- Cyclic ketones
- Spain – The total valuation of organic chemicals exported from Belgium to Spain in 2024 – 1.87 billion US dollars

#### Top 5 variants of organic chemicals exported

- Primary alcohols
- Secondary alcohols
- Tertiary alcohols
- Phenols
- Ethers
- Poland – The total valuation of organic chemicals exported from Belgium to Poland in 2024 – 1.54 billion US dollars

#### Top 5 variants of organic chemicals exported

- Cycloalkenes
- PAHs
- Alkyl halides
- Aryl halides
- Alcohols
- Luxembourg – The total valuation of organic chemicals exported from Belgium to Luxembourg in 2024 – 1.2 billion US dollars

#### Top 5 variants of organic chemicals exported

- Cycloalkenes

- PAHs
- Alkyl halides
- Aryl halides
- Alcohols
- China – The total valuation of organic chemicals exported from Belgium to China in 2024 – 1 billion US dollars

Top 5 variants of organic chemicals exported

- Alkanes
- Alkenes
- Alkynes
- Arenes
- Cycloalkanes
