About Us

Dark underarms are a common concern caused by factors such as excessive sweating, frequent shaving or waxing, friction, hormonal imbalance, pigmentation disorders, and the use of harsh deodorants. At Eva Pimple Skin & Hair Clinic, we offer advanced Underarm Whitening Treatment in Pune designed to safely lighten dark underarms and improve overall skin texture.

What Does Underarm Whitening Treatment Include?

- Medical-grade chemical peels suitable for sensitive skin
- Pigmentation-correcting therapies
- Skin lightening procedures to reduce melanin buildup
- Dermatologist-recommended skincare for maintenance

A woman with her hair in a ponytail is wearing protective eyewear with a purple logo. She is looking towards the right. The background is a bright, clinical setting. A dark, torn-edge banner is overlaid across the middle of the image, containing text and contact information.
