

## Bituminous Substances Export of the Netherlands in 2024: The Latest Trade Analysis

Bituminous Substances are a category of black or dark brown viscous materials derived from petroleum or natural deposits. The specific commodity is the topmost demanded essential of the globally leading traders because of its critical role in infrastructure and the uneven natural distribution. The rapid global organization, along with the high demand in emerging economies, has positioned bituminous substances as a specific necessity shaping the global trade.

The [\*\*Netherlands Import Data\*\*](#) says, the country in Western Europe, bordered by Germany and Belgium to the east and south, have solidified their ranking as a substantial contributor to the worldwide export market of bituminous substances due to the port of Rotterdam and the extensive deep-water terminals.

The closer proximity of the nation to European markets and the strong logistic services have resulted in a total valuation of bituminous substances exports worth 39 billion US dollars in 2024. The connection to the largest petrochemical cluster and the integrated refinery and export facilities have been shaping the overall trade. Subscribe to Import Globals, the leading Netherlands importexport trade provider, to stay updated with the latest information regarding the bituminous exports of the nation via the Netherlands Trade Data.

## **GOVERNMENT INITIATIVES SUPPORTING THE BITUMINOUS SUBSTANCES EXPORT OF THE NETHERLANDS IN 2024**

The support international business subsidy scheme has reduced the financial barriers for bituminous exporters. It has helped the domestic authorities through their active involvement in trade shows. The RVO's international business services and trade facilitation have enhanced the ability of the exporters regarding the navigation of customs, legal, and regulatory environments.

The active trade promotion through economic sections of embassies has strengthened the bilateral trade relationship while helping them increase the export volumes. The commercial diplomacy and trade advocacy have improved the condition of the Dutch exporters.

## **THE LEADING VARIANTS OF BITUMINOUS SUBSTANCES EXPORTED FROM THE NETHERLANDS IN 2024**

The urban development across Africa and the active participation of the country in global trade agreements have influenced it to introduce its domestically produced diversity of bituminous essentials in the worldwide trade output. According to the [Netherlands Export Data](#),

the topmost variants of bituminous substances exported from the nation in 2024 are,

- Petroleum Bitumen (Penetration Grade)—The total valuation of Petroleum Bitumen (Penetration Grade) exported from the Netherlands in 2024—18 billion US dollars
- Oxidized Bitumen (Blown Bitumen)—The total valuation of Oxidized Bitumen (Blown Bitumen) exported from the Netherlands in 2024—9.65 billion US dollars
- Polymer-Modified Bitumen (PMB)—The total valuation of Polymer-Modified Bitumen (PMB) exported from the Netherlands in 2024—7.22 billion US dollars
- Bitumen Emulsions—The total valuation of Bitumen Emulsions exported from the Netherlands in 2024—6.21 billion US dollars
- Cutback Bitumen—The total valuation of Cutback Bitumen exported from the Netherlands in 2024—5.42 billion US dollars
- Industrial-Grade Bitumen—The total valuation of Industrial-Grade Bitumen exported from the Netherlands in 2024—3.89 billion US dollars
- Paving-Grade Bitumen—The total valuation of Paving-Grade Bitumen exported from Netherlands in 2024—2.76 billion US dollars
- Roofing-Grade Bitumen—The total valuation of Roofing-Grade Bitumen exported from Netherlands in 2024—2.21 billion US dollars
- Waterproofing Bituminous Compounds—The total valuation of Waterproofing Bituminous Compounds exported from the Netherlands in 2024—1.89 billion US dollars
- Specialty Bituminous Preparations—The total valuation of Specialty Bituminous Preparations exported from the Netherlands in 2024—1.5 billion US dollars

## **TOP TRADE PARTNERS OF THE NETHERLANDS IN 2024**

The stable and transparent trade regulations and the skilled technical workforce in the petrochemical sectors have maintained the integrity of the country with the topmost trading regions. According to the **Netherlands Customs Data**, the topmost varied trade partners of the nation for bituminous substances exports in 2024 are,

- Germany—The total valuation of bituminous substances exported from the Netherlands to Germany in 2024—14 billion US dollars

Top 5 variants of bituminous substances exported

- Asphaltic oil
- Asphalt emulsion binder
- Tack coat bitumen
- Prime coat bitumen
- Fog seal bitumen
- Belgium- The total valuation of bituminous substances exported from the Netherlands to Belgium in 2024—10 billion US dollars

Top 5 variants of bituminous substances exported

- Plastic bitumen
- Synthetic bitumen
- Industrial bituminous binder
- High penetration bitumen
- Low penetration bitumen
- France- The total valuation of bituminous substances exported from the Netherlands to France in 2024—8.6 billion US dollars

Top 5 variants of bituminous substances exported

- Bituminous roofing rolls
- Self-adhesive bituminous membrane
- Bituminous waterproofing compound
- Damp-proofing bitumen
- Bituminous mastics
- United Kingdom- The total valuation of bituminous substances exported from the Netherlands to the United Kingdom in 2024–7.42 billion US dollars

Top 5 variants of bituminous substances exported

- Flaxed bitumen
- Marine grade bitumen
- Tank coating bitumen
- Pipe coating bitumen
- Anti-corrosive bituminous compound
- United States- The total valuation of bituminous substances exported from the Netherlands to United States in 2024–6.54 billion US dollars

Top 5 variants of bituminous substances exported

- Elastomer-modified bitumen
- Plastomer-modified bitumen
- Crumb rubber modified bitumen
- SBS modified bitumen
- APP modified bitumen
- Italy- The total valuation of bituminous substances exported from the Netherlands to Italy in 2024–4.21 billion US dollars

Top 5 variants of bituminous substances exported

- Bitumen emulsion
- Cationic bitumen emulsion
- Anionic bitumen emulsion
- Non-ionic bitumen emulsion
- Polymer-modified bitumen (PMB)
- Spain- The total valuation of bituminous substances exported from the Netherlands to Spain in 2024–3.21 billion US dollars

Top 5 variants of bituminous substances exported

- Roofing grade bitumen
- Waterproofing bitumen
- Cutback bitumen
- Rapid-curing cutback bitumen
- Medium curing cutback bitumen
- China- The total valuation of bituminous substances exported from the Netherlands to China in 2024–1.87 billion US dollars

Top 5 variants of bituminous substances exported

- Hard grade bitumen
- Soft-grade bitumen
- Paving grade bitumen
- Road construction bitumen
- Industrial-grade bitumen
- Poland- The total valuation of bituminous substances exported from the Netherlands to Poland in 2024–1.5 billion US dollars

Top 5 variants of bituminous substances exported

- Penetration grade bitumen

- Viscosity grade bitumen
- Performance grade (PG) bitumen
- Oxidized bitumen
- Blown bitumen
- Sweden- The total valuation of bituminous substances exported from the Netherlands to Sweden in 2024–1 billion US dollars

Top 5 variants of bituminous substances exported

- Petroleum bitumen
- Asphalt
- Natural bitumen
- Asphaltite
- Gilsonite
