

Sip Local, Sip Smart: Vancouver's Ultimate Drinks Guide

Whether you are hosting a weekend dinner party, winding down after a long week, or looking for the perfect gift, finding the right bottle shouldn't be a chore. In British Columbia, we are spoiled for choice with world-class vineyards and innovative breweries right in our backyard.

At Marquis Wine Cellars, we've spent over 30 years helping Vancouverites navigate the beautiful, sprawling world of beverages. Today, it's easier than ever to get exactly what you need delivered straight to your door. Here is how to elevate your glass this season, whether you are looking to [shop for wine](#) or explore something entirely new.

The Rise of the Mindful Pour: Non-Alcoholic Wine

The beverage landscape is shifting, and moderation has never tasted so good. If you are skipping the alcohol but still crave the complexity, structure, and ritual of a great glass of vino, you are in luck.

The market for non alcoholic wine has exploded, moving far beyond simple sparkling juices. Today's winemakers use advanced dealcoholization techniques that preserve the delicate aromas and terroir of the grapes. From crisp, mineral-forward mock-Sauvignon Blancs to robust, alcohol-free reds, you no longer have to compromise on flavor when choosing a sober lifestyle.

Celebrate Local with BC Craft Beer

If grapes aren't on your radar today, British Columbia's legendary beer scene certainly should be. Vancouver is a global hub for craft brewing, and filling your fridge with bc craft beer means supporting local community businesses while enjoying unparalleled quality.

From hazy, fruit-forward IPAs born in East Van to crisp, refreshing lagers brewed on the Island, the variety is endless. At Marquis Wine Cellars, we curate a selection of local brews that represent the very best of BC's creative spirit. It's the perfect accompaniment to a backyard barbecue or a casual night in.

Shop for Wine Like a Pro

Ready to restock your cellar or find that perfect pairing for tonight's dinner? When you shop for wine, the experience should be exciting, not overwhelming.

Instead of grabbing the same old bottle from the supermarket shelf, consider exploring unique imports or hidden BC gems. Look for hidden-value regions like Portugal or South Africa, or invest in a spectacular Okanagan Valley Syrah. If you aren't sure where to start, our passionate team of experts is always ready to point you toward a bottle that punches well above its price point.
