Why Melbourne storage is in demand

360K

Melbourne industrial space leased in Q1 2026, the strongest first quarter since 2022

+4.4%

Growth in prime industrial rents across the year to Q4 2025

-20%

Drop in new warehouse supply forecast for 2026 versus 2025

44%

Of Australian manufacturers plan to invest more in supply chain resilience in 2026

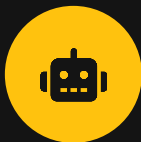

Sources: CBRE (Q1 2026); Knight Frank Melbourne Industrial; Australian Industry Group via Supply Chain Channel

3 storage trends shaping 2026

Smart visibility

Australian logistics operators are scaling AI for end-to-end stock and shipment tracking.

Automation

Automation in Australian logistics is forecast to reach USD 1.8 billion by 2030.

Flexible space

Businesses now want flexible, efficient space instead of simply more space.

Melbourne, VIC

Warehouse storage FAQs

Q

How can I use space better without expanding?

Go vertical with taller racking, mezzanine floors or movable racks.

Q

Does storage affect order speed and accuracy?

Yes. Organised stock and barcode scanning make picking faster and cut mistakes.

Q

Can storage scale with my business?

Yes. Flexible space adjusts to busy seasons, new product lines and market changes.
